## FOREWORD FROM THE COMMISSION CHAIRMAN

This booklet has specifically been compiled to present a summary of county budgets to the first Inter-Governmental Budget and Economic Council Meeting of August 12, 2013. It contains data on intergovernmental transfers by county, revenue generated at county-level, and expenditure estimates. An attempt has been made to collapse expenditure estimates by three categories, namely; recurrent development and debt resolution.

An aggregation of county budgets shows that 69% of revenues will come from national government transfers while 31% will be generated from own revenue sources. A look at individual county budgets reveals the following:

Details	No. of counties	Percentage
Surplus budget	11	23%
Balanced budget	11	23%
Deficit of 1% - 5%	7	15%
Deficit of 6% - 10%	4	9%
Deficit of 11% - 15%	3	6%
Deficit of 16% - 20%	3	6%
Deficit of over 20%	8	17%
<b>Totals</b>	<b>47</b>	<b>100%</b>

The top five counties with the highest budget deficit are; Vihiga (91%), Mombasa (86%), Nyamira (70%), Siaya (43%) and Kisumu (38%). We are in talks with these counties to know what expenditures they plan to reduce so that they achieve balanced budgets. Furthermore, we are liaising with counties of Kisii and Mombasa to understand the sources of the huge external funding that they have factored into their budgets.

Every effort has been made to ensure the approved county budgets data are appropriately summarized. However, we request anyone who spots a major error to point it out to us through our contacts indicated at the back cover of this booklet.
